To Whom It May Concern:

Kevin Ke spent three weeks working with our animation unit. During that time he produced professional quality drawings that were put right into production. Kevin was well liked by the team and conducted himself quite professionally. He was also quick to smile and join conversations where appropriate. Kevin is a very talented artist who is already good enough and mature enough to contribute to high-level projects.

Kevin Ke is someone that I would highly recommend to anyone looking for an artistic talent to compliment their team, project or group. We hope that he will spend more time with us and when he finally graduates into the working world on a full time basis we hope that he will consider joining our team.

Sincerely,

Kevin O'Donnell
